

55. The bed of claim 48, wherein the display is pivotably coupled to the siderail.
56. The bed of claim 55, wherein the display is movable between a first substantially vertical position and a second substantially horizontal position.
57. The bed of claim 55, wherein the display is pivotably coupled to the siderail about a pivot axis adjacent to a top end of the display screen.

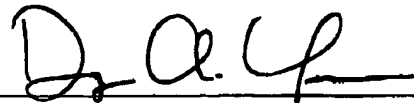

REMARKS

Originally solicited claims 1-26 have been canceled with the applicant reserving the right to file continuations and divisionals to the subject matter contained therein. New claims 34-57 have been added, wherein claims 34-37 depend, either directly or indirectly, from originally solicited claim 27. New claims 38-57 all recite a hospital bed including a display. Since all of the newly solicited claims either depend from originally solicited claims, or recite subject matter similar thereto, it is respectfully submitted that claims 34-57 are appropriate for examination in combination with claims 27-33.

For the foregoing reasons, it is respectfully submitted claims 27-57 are appropriate for consideration by the Examiner. Furthermore, it is submitted that these claims are in proper condition for allowance and such action at an early date is respectfully requested.

The Examiner is invited to contact the undersigned at the telephone number provided below if any question or comment should arise during consideration of this matter

Respectfully submitted,

Douglas A. Yerkson
Reg. No. 39,882

Indianapolis, Indiana
